- English (Fluent)
- Bangla (Native)

PROFILE

A passionate full-stack engineer with 2 years of experience breathing life into modern web applications. My toolbox overflows with JavaScript mastery (React & Vue), PHP magic (Laravel), and the foundational strength of MySQL databases. I thrive on the challenge of crafting elegant, efficient code solutions that deliver seamless user experiences. My journey began with a fascination for how technology bridges the gap between ideas and reality, and that spark has evolved into a burning desire to build innovative, user-centric products that make a difference. Whether collaborating with teams or diving deep into intricate technical landscapes, I approach every project with a contagious enthusiasm and an unwavering commitment to excellence. I'm eager to join a team where my skills can flourish and contribute to building the future of the web.

WORK EXPERIENCE

Interface Solutions Ltd.   2022 - PRESENT
